Portable Skip Type Compactor with Pendulum Ram

Due to the special ram, the enclosed hydraulic cylinders and its leakproof charge box, the HUSMANN pendulum ram compactor is well suited for the compaction of wet waste.

Regular cleaning underneath and behind the ram of this HUSMANN pendulum compactor is not required. As this machine is leakproof no liquid can escape, thus assisting in the clean and hygienic maintenance of the compactor area. The use of the HUSMANN pendulum ram compactor can be recommended for places where wet waste originates i. e. hospitals, homes for the aged, hotels, large-scale catering establishments, markets, etc.

The HUSMANN pendulum ram compactor contributes considerably to the reduction of costs for transport, labour, maintenance and storage.

Portable Compactors SPB SW-AN-E (Filling Opening: 1000 x 1400 mm)

Technical Specifications	Model	Capacity (cbm)	Length (mm)	Width (mm)	Height (mm)
Power: 5.5 kW	SPB 8 SW-E	8	3.790	2.020	2.465
Power supply: 400 V, 50 Hz	SPB 10 SW-E	10	4.340	2.020	2.465
Protection: 16 amps slow	SPB 12 SW-E	12	4.890	2.020	2.465
Compaction force: 310 kN					
Volume per stroke: 0,55 cbm					
Volume per hour: theor. approx. 70 cbm					
Cycle time: 29 s					
Filling height: 1570 mm					

Advantages of HUSMANN Portable Compactors with Pendulum Ram

- Suitable for wet waste
- Leakproof design, H = 1,0 m
- No cleaning of charge box required
- Top hinged door with ratched locking mechanism
- Sections all welded through
- Trouble-free emptying due to conical construction
- Standardized components
- Available with or without integral tipping device

SPB 10 SW-E

Applications: Hospitals, Hotels, Civic Amenity Sites, Markets, Factories, Food Producers and Distribution Centres

Compactors – Containers – Transfer Stations
Steel Dump Bodies – Shredders – Special Equipment
